SCHOOL REPORT

This is the first full year that our schools have been under the new system.

Under this system the school year ends Aug. 31st. This report therefore will cover receipts and expenditures from Sept. 1, 1919, to Sept. 1st, 1920. We would like to make it clear to our people that school districts receiving aid from the state have to comply with the requirements of the State Board. They must keep their expenditures within the sums stated in a budget they are required to furnish the State Board in advance. This budget has to be approved by the State Board. If for any reason we exceed these figures we can not obtain all the aid from the state needed to cover all our expenses. Last year as the teachers had to pay more and more for board we had to increase their pay in proportion. At the end of the year we were paying them more than our budget called for. This excess the State Board would not make up to us so we had to borrow about \$200.00 from the town.

Whole number of pupils attending schools 84; boys, 41; girls, 43.

Number of weeks in school year 36.
